The best way to design, build, and ship software.

Step 1: Create personal account

Step 2: Choose your plan

Step 3: Tailor your experience

Create your personal account

Username

This will be your username. You can add the name of your organization later.

Email address

We'll occasionally send updates about your account to this inbox. We'll never share your email address with anyone.

Password

Use at least one lowercase letter, one numeral, and seven characters.

By clicking "Create an account" below, you agree to our [terms of service](#) and [privacy statement](#). We'll occasionally send you account related emails.

Create an account

You'll love GitHub

- Unlimited collaborators
- Unlimited public repositories
- Great communication
- Frictionless development
- Open source community

2) Enter your desired username, your email address, and a new password, then click Create an account to sign up for github. Make sure you keep your username and password somewhere safe where you can access it easily as we will be using github all throughout the course.

3) Choose Unlimited public repositories for free (you won't need a paid account for now) and click Continue.
